The Objectives of This MOU are:

- To allow the parties to plan collaborative research, educational, and training activities of mutual interest.
- To make available to the students, researchers and faculty those facts, methods and new findings that are discovered through that research, and to share specialized scientific methods or findings and support services in ways that will expand and provide more cost-effective research and education for the Parties.

SD College, Alappuzha and Doctor John's Biotech Centre agree that cooperation in research academic collaborations would be mutually beneficial. The areas of cooperation may include, subject to mutual consent, any desirable and feasible activity that would further the goals of each institution. Such interaction may include cooperation in a variety of joint academic and education activities such as:

- Seek mutual advice and support in planning and executing programs promoting excellence in respective areas of research and education.
- to exchange information on teaching, learning material and other literature relevant to their educational and research programs
- Joint research projects and publications, including work by undergraduate, post graduate, and doctoral students at the partner institutions
- Reciprocal placement of students in paid internships and co-ops, when possible
- Joint conferences, workshops and certificate programs
- Encourage the regular / visiting faculty members and scientist, of either Institute to visits the other institute for giving talks in lecture/programs.
- Encourage joint research activities and project. Interested faculty of either institution may initiate joint research projects. Subject to available funding, the Parties will encourage research centers of their respective institutions to initiate and conduct collaborative projects consistent with the other terms and specifications of this agreement.
- The Postgraduate Department of Chemistry & Research Center will coordinate the activities under this MOU on behalf of the college for effective implementation.

SDC and DJBC further agree that detailed terms and conditions that guide each activity identified above will be separately determined and agreed upon by the two institutions.

Intellectual Property

SDC and DJBC agree to respect each other's rights to intellectual property. Further, the intellectual property rights that arise as a result of any collaborative research or activity under this MOU will be worked out on a case-by-case basis, and will be consistent with the officially laid down IPR policies of the two institutions.

Tenure and Termination

This MOU will take effect from the date it is signed by representatives of the two institutions. It will remain valid for ten years, and may be continued thereafter after suitable review and agreement. Either institution may terminate the MOU by giving written notice to the other institution six months in advance. However, SDC and DJBC will ensure that all activities in progress are allowed to complete successfully.

The following authorized individuals have signed the present MOU on behalf of their respective institutions:

Prof. (Dr.) Prema K. H.
